

Lewisham is closing roads to create more traffic congestion and increase journey times.

The Borough of Lewisham is closing many roads in your local area as part of a programme to encourage walking, cycling and public transport. But it will increase journey times and disadvantage the elderly and disabled who cannot walk or cycle far. Emergency services will also be delayed.

There has been minimal public consultation on these proposals and Councillors are ignoring anyone who opposes these closures.

Lewisham Council are directly attacking vehicle owners and those who wish to have a choice about how they travel by closing roads.

The ABD is supporting local residents who oppose this unjustified and undemocratic move by Lewisham Councillors. Road closures damage the road network and create long journey times for both residents and visitors. It just makes no sense!

Lewisham Closing Roads

-

Make Sure You Object

ROAD CLOSED

Lewisham's Road Closures—Make Sure You Oppose Them

Ignoring the views of local residents and with no proper public consultation.

Roads such as Upwood Road, Cambridge Drive, Manor Park, Manor Lane, South Row and Geoge Lane and many more have been closed or will be. That will effectively block many routes and divert vehicles onto the heavily congested A20, A2212, A205 and other roads.

Queues of traffic on the main roads will lengthen and journey times will increase for everyone including buses. More traffic congestion and more air pollution is the result. If you respond to this leaflet we will send you more information about the road closures and how to object before they are made permanent.

If you are affected by these proposals you should certainly voice your objections. **STOP THE ROAD CLOSURES NOW BEFORE IT'S TOO LATE**

Lewisham Council have been closing roads using the Covid-19 epidemic as a spurious excuse. These closures will be made permanent unless you object.

This leaflet is published by the Alliance of British Drivers (Pro-Motor Ltd) – a not for profit company limited by guarantee and registered in England no. 2945728.

We urge you to object to these proposals.

Please return the form below to receive more information (including how to object), or **send an email to: RL2019@ABD.ORG.UK** (mention LEW2 in the title line and add comments).
